

## **New international partnership between The Patent Magazine and OFEED**

**OFEED has signed an international partnership with the magazine "The Patent" to promote the culture of innovation and give visibility to the brightest minds of Morocco.**

Supporting young inventors, encouraging matching between stakeholders and presenting the most innovative prototypes to the general public: these are the objectives of the partnership signed between "The Patent" and OFEED. Thanks to this agreement, the magazine will become the privileged channel for the dissemination and promotion of the activities promoted and organized by OFEED.

OFEED ensures the organization of the events necessary for inventors to stimulate their creativity and provide the necessary support to promote their inventions; of being a leading company at the regional level, recognized nationally and internationally. It organizes events to fulfill the needs of inventors as well as companies and states in the region and makes the Moroccan international exhibitions and competitions of inventions one of the favorite destinations of inventors and one of the key dates in their diaries.

The inventions, patents and activities promoted by OFEED will be previewed on the pages of "The Patent" and on the website [www.thepatent.news](http://www.thepatent.news). OFEED's projects are strongly in tune with the spirit of the magazine and it has been decided to stipulate a Memorandum of Understanding for the promotion of activities of common interest. In detail, the parties are committed to a mutual exchange of visibility with the aim of spreading the culture of innovation and promoting access to information. Members of OFEED will be entitled to a discount for the purchase of the magazine and the association undertakes to report stories, projects, inventions and patents worthy of interest that will be the subject of in-depth analysis in the magazine and online.

The material to be published will be subject to the prior authorization of the magazine's management and must be sent within a deadline agreed between the parties. The management of the magazine also reserves the right not to publish the content received, giving reasons for its decision and setting a reasonable deadline to allow changes and/or additions.

**OFEED and "The Patent" are confident that this partnership will help advance the inventor community and the world of innovation.**

Further information is available on the official website of [OFEED](http://www.ofeed.ma).
