INTERNATIONAL INVENTIONS FAIR (ISIF) IS GETTING PREPARED TO OPEN TO THE WORLD'S INNOVATIVE MINDS FOR THE SEVENTH TIME....

We would like to inform you that, 7th International Inventions Fair - ISIF'22 will be held between 30th of August and 04th of September, 2022, with the Honorary Patronage of Republic of Turkey Ministry of Industry and Technology, hosted by Turkish Patent and Trademark Office (TÜRKPATENT). Also, it will held under the international patronage of International Federation of Inventors' Association (IFIA), organized by Anatolia Inventions and Inventors Association, supported by World Intellectual Property Organization (WIPO) and Turkish Technology Team.

Won the title of being the international invention fair with the highest number of visitors in the world, ISIF will be held simultaneously with TEKNOFEST, the world's biggest space, aviation and technology festival and will continue to contribute to the promotion of inventions, meeting with investors and commercializing them more strong. ISIF is also; is a social activity candidate to be;

* an awareness organization which shall be colored by the attendance of people from all over the world,

* an organization which shall gain value with the national and international workshops,

* a social organization to be the most powerful industrial property network of the world.

As this positive initiative, which we initiated in 2016 has created tremendous impression not only in our country but all around the world, the accuracy and necessity of the work what we have been doing is hereby verified obviously. However we feel strongly the responsibility to accomplish better than the previous year every time.

We hereby express our gratitude to all our stakeholders who provided contribution to this event which has been perfectly fictionalized and having various components which engage and supplement each other.

WHY SHOULD YOU PARTICIPATE ?

National and International producers and commercial companies, entrepreneurs, individual inventors, private researchers, R & D centres, consultants, patent offices, private or state-sponsored research institutes, science parks, technoparks, technology transfer offices, universities, laboratories, related institutions and organizations related to the intellectual and industrial property, angel investors, venture capital groups, innovation promoters, patent attorneys and inventor associations are the participants of Istanbul International Invention Fair - ISIF.

-The regional, national and international organisations can take place as participants in Istanbul International Invention Fair - ISIF'22 to present their activities, services and programs,

-Great opportunity to get into the national and international market and promote your ideas and inventions,

-Exhibit your inventions, new product and ideas to the general public, licensing companies, distributors, investors,

-Increase awareness of your invention worldwide through visual and written media,

-Meet and contact with the business representatives, entrepreneurs, financiers, consumers, producers who will come from many countries,

-Promote your invention and innovation in market with ISIF medals and awards,

-Be informed of the importance and benefits of intellectual property rights and commercialization at the workshops,

-Get into long-term partnerships with inventors associations worldwide, by the way of this event which will be held under the patronage of International Federation of Inventors' Associations (IFIA),

-Receive professional support about the commercialisation of your invention from the marketing experts, intellectual property experts, patent agents, technology transfer companies.

ABOUT TEKNOFEST

TEKNOFEST is the world's largest aviation, space and technology festival organized by the Ministry of Industry and Technology, Turkey Technology Foundation and with the partnership of many organizations that play a critical role in the development of national technology in Turkey.

TEKNOFEST Aviation, Space and Technology Festival, the first of which was held in 2018; By hosting many activities such as technology competitions, air shows, concerts, events and interviews on various subjects, it aims to increase the interest in technology in society and to raise awareness about Turkey's transformation into a society that produces national technology.

Aviation, Space and Technology Festival TEKNOFEST, which will be held at Samsun Çarşamba Airport on September 21-26, 2021, continues its journey of the National Technology Move with confident steps, inspired by its past.

ISIF & INVESTORS COOPERATION

ISIF wants to achieve to bring together the investors with inventors around a common purpose and accordingly to achieve licensing and commercialization negotiations which are the most important outcomes. In this context, angel investor networks and venture capital groups are attached great importance in ISIF'22 as in ISIF'16, ISIF'17, ISIF'18, ISIF'19, ISIF'20 and ISIF'21.

On the content of ISIF'22, the collaborations with the Investor Network offers to the inventors;

- the possibility to benefit from the events local and international studies prepared on behalf of individual and institutional developments,
- working together with the highest entrepreneurial potential of Turkey,
- have knowledge of investment trends and international entrepreneurship,
- networking with international successful entrepreneur, investors and leaders.

ISIF & INDUSTRY COOPERATION

7th Istanbul International Invention Fair - ISIF'22, undertakes duties for the conversion from knowledge into a product, added-value and commercialised. The collaboration with the industry sector is the most important factor in strengthening activities of invention, R&D and innovation.

The rapid expansion of new ideas and inventions is extremely important in terms of economic growth and social progress. Economic and social benefits will level up to the highest level in our country with the activation of companies' potential of conversion of new ideas / inventions to the industrial products.

In this regard, the industrialists as a investors with the industrial companies in the private sector and collaborations with the occupational upper unions are planned to take place in the most comprehensive way at ISIF and it is maintained working on this purpose.

INTERNATIONAL RELATIONS

'ISIF International Relations and Participation' is the most important features that make it different from other invention events in our country.

The aim of ISIF'22 is to spread the culture of innovation and consciousness effectively to all layers of society and ecosystem. It is aimed to ensure the sharing of knowledge and technology between countries as well as the visibility of the inventions on an international basis and the possibility of providing global commercialization.

International Federation of Inventors' Association (IFIA) and its members, international investment institutions and sectoral unions with studies and agreements will take place on 2022 in the 7th Istanbul International Invention Fair ISIF'22, and it is planned more countries participation.

ISIF'22 AWARDS

Each invention will be evaluated which will take place in the fair catalogue by the International Jury Board which will consist of experts in their field and the awards will be presented to the awardees at the ISIF'22 Award Ceremony.
